Experience Summary

Adobe Certified AEM Developer with 4 years of experience in designing, developing, and migrating enterprise digital platforms using AEM 6.5 and AEM as a Cloud Service.

Specialized in:

- Headless AEM + Angular SPA Implementations.
- AEM 6.5 -> AEMaaS Migration
- Proficient in Sling Models, OSGI Services, Servlets, HTL, MSM, Workflows, CF & Experience Fragments.
- Experienced in designing AI powered ADLC solutions to automate workflows via multi-agent orchestration and reusable markdown skills.
- Dispatcher Configurations & Cloud Manager CI/CD Pipelines
- Adobe Analytics & Marketo Integration
- Experienced in Agile/Scrum methodology with strong collaboration skills across business, product, and cross functional teams.

Skill Set

Category	Technologies
AEM & CMS	AEM 6.5, AEM as a Cloud Service, HTL, Editable Templates, MSM, Content Fragments, Experience Fragments, Client Libraries, Dispatcher, Headless AEM, GraphQL, Analytics, Marketo
AI & Agentic Development	Agentic Development Lifecycle (ADLC), Markdown AEM Skills, Adobe MCP, Multi-Agent Architecture
Backend	Java, Servlets, Sling Models, OSGI Services, Groovy Scripts, Python (Basic)
Frontend	HTML, CSS, JavaScript, Angular (Basic)
DevOps & Tools	Jenkins, Maven, GIT, SonarQube, Adobe Cloud Manager, CI/CD Pipelines, AWS(EC2)
Methodologies	Agile, Scrum, Kanban, Jira, Confluence

Certification

- **Adobe Certified Expert** - Adobe Experience Manager Sites Developer
- **Adobe Certified Professional** - Adobe Experience Manager Sites Developer

Professional Experiences

Cognizant Technology Solutions | Bangalore
Associate (Feb 2026 - Present)

1. AI-Powered AEM Sites ADLC | Cognizant

Project Description:

AI-powered Agentic Development Lifecycle (ADLC) framework developed to automate the end-to-end AEM Sites development process using specialized AI agents and reusable AEM Markdown skills.

Roles and Responsibilities:

- Developed a multi-agent AI framework to automate the end-to-end AEM Sites development lifecycle.
- Created specialized AI agents using Markdown skills for architecture, design, and code generation.
- Automated the creation of AEM components, dialogs, HTL, OSGi configurations, and content fragments.
- Implemented an approval-driven workflow for generating and reviewing architectural designs.
- Automated code validation, Git commits, PR creation, and CI/CD deployment pipelines.
- Integrated Playwright and Lighthouse for comprehensive UI, functional, accessibility, and SEO testing.
- Developed an automated defect feedback loop routing QA failures back to AI agents for remediation.
- Validated end-to-end workflows using Claude CLI and VS Code to minimize manual developer effort.

2. Enterprise AEM Support Automation Platform | Cognizant**Project Description:**

Developed an enterprise-grade AEM support platform, integrating Jira/ServiceNow, Claude Agent SDK, and Adobe MCP servers to autonomously diagnose, debug, and resolve L1/L2 AEM support tickets and environment issues.

Roles and Responsibilities:

- Developed an automated L1/L2 AEM support platform using FastAPI, Python, Claude Agent SDK, and MCP.
- Built Jira and ServiceNow webhook pipelines to automatically process tickets, extract context, and trigger diagnostics.
- Integrated Adobe MCP servers to provide AI agents with live environment access for log and JCR analysis.
- Developed a FastAPI risk classification engine requiring Human-in-the-Loop (HITL) approval for production changes.
- Implemented structured audit trails and execution logging in Python microservices to trace agent actions.
- Deployed PostgreSQL-backed microservices on AWS EC2 for persistent storage of ticket states and logs.

Employdemy Solutions | Bangalore
AEM Developer (Sept 2022 - Feb 2026)

3. Global Marketing Enhancements | Kaiser Permanente (Health Care)**Project Description:**

Enterprise marketing platform developed using Headless AEM Integrated with Angular SPA to enable content delivery across multiple regions and digital channels for healthcare services.

Roles and Responsibilities:

- Implemented Headless AEM with Angular SPA architecture
- Designed and Developed Templates, Components, Sling Models, Servlets, and OSGi services.
- Implemented MSM for multilingual and regional content management.
- Developed Auto-Suggestion Search using AEM Search APIs.
- Integrated Adobe Analytics , CJA Analytics & Marketo for marketing insights.
- Managed Dispatcher configuration & SEO optimization (Sitemap/Robots.txt).
- Coordinated with AMS & Release teams for production deployment.
- Achieved 50%+ JUnit code coverage.

4. AEM 6.5 to Cloud Migration | Transurban

Project Description:

Migration of enterprise websites from AEM 6.5 On-Premise to AEM as a Cloud Service ensuring cloud compliance, performance improvement, and modernization of architecture.

Roles and Responsibilities:

- Performed requirement analysis, sprint planning & story estimation.
- Executed BPA and resolved critical cloud compatibility issues.
- Refactored WCMUsePojo to Sling Models.
- Migrated Static & Editable Templates.
- Performed content migration using CTT Tool & Groovy Scripts.
- Configured environment-specific run modes.
- Set up and maintained CI/CD Cloud Manager pipelines.
- Ensured 50%+ JUnit coverage.

5. E-Commerce Website Development | Golf Pride

Project Description:

Development of a full ecommerce platform for Golf's integrated with AEM Hybrid SPA supporting end-to-end purchase lifecycle including Add To Cart, Payment and Order Management

Roles and Responsibilities:

- Implemented Cart, Payment, Shipping, Inventory Management & Order Confirmation modules.
- Integrated Adobe Analytics for customer tracking.
- Improved component reusability and UI integrity by developing custom AEM components with robust dialog validations.
- Used Query Builder & Page Manager APIs.
- Maintained 50%+ JUnit coverage.

Awards/Recognition

- **The Extra Mile Award** - Awarded for exceptional ownership beyond role expectations and proactive program solving skills & mentoring team members.
- Recognized as a Key Contributor in AEMaaS Migration Initiative, driving cloud compliance and modernization of enterprise platforms
- Appreciated for Excellence in Code Quality & Best Practices Implementation, ensuring secure and scalable AEM Solutions.

Education

Title of the Degree	College/University	Year of Passing
Bachelor of Engineering	VTU	2019
Diploma	Board of Technical Education, Bangalore	2016
SSLC	Karnataka State Board	2013
